Established U.S. processing leader

#1 PIN Debit Acquirer*

800+ Merchant Locations

$842 Billion Volume Processed

23 Billion Transactions

Today, we’re the nation’s #1 PIN debit processor and the #2 processor overall. We’ve been named one of Forbes’ fastest growing technology companies.

*As ranked by Nilson for general purpose transaction volume.
Virtual Terminal Plus

Taking your payments farther

• Never turn down a payment – accept payments wherever you are with Virtual Terminal Plus from Vantiv.

• Our easy to use web-payment solution is the perfect complement to the way you process payments.

• Accept credit, signature debit, and recurring payments with the advantage of reporting accessibility from any location with an internet connection.

• Unlike other web payment solutions, Vantiv’s solution captures non-payment related information, supports multi-users and is tailored to your business.

• **Virtual Terminal Plus** is the only payment acceptance solution you need to manage your payments and customers!
Virtual Terminal Plus

What it MEANS…

- Intuitive, faster, easier payments at the POS
- Enhances the payments experience
- Reduces administration complexities
- Consolidated service and support when you need it
- Reliability when you need it most
- Continuous improvement and new features
- No more expensive hardware upgrades / maintenance
Virtual Terminal Plus
What it DOES…

• Accepts card present and not-present (all card brands)
• Introduces encrypted card readers for extra security
• Supports recurring payments, transaction management (i.e. refunds, reversals) and reporting
• Supports customized fields for non-payment info
• Supports multi-location with user role permissions
• Supports Level 2 and Level 3 payments (B2B)
Virtual Terminal Plus

What it IS...

• A simple, easy-to-use Virtual Terminal application for the small-to-medium sized merchant.

• Accessibility from any location with an internet connection (Internet Explorer, Firefox, and Chrome)

• Designed, built and runs on Vantiv technology

• PCI compliant on a secure server platform

• Plus, more …

- Multi-user management and authentication with roles and permissions
- Easy transaction management to issue refunds and reversals
- Conduct simple customer searches for historical transactions
- Comprehensive online reporting
- Customized user fields to capture additional details with the payment transaction
Benefits of Virtual Terminal Plus

**Efficient** – A consolidated statement from Vantiv gives you the ability to view all merchant services fees at a single glance.

**Multi-user support** – Ability to manage and support multiple users and locations to get an overall view of your payment data.

**Convenient** – Accessible via popular web browsers.

**User-friendly** – A simple, easy-to-use web interface.

**More Secure** – Payment data is stored on our PCI compliant secure server platform. An additional encrypted device can be purchased for an extra layer of security.

Virtual Terminal Plus is an online payment terminal, plus more!
**Virtual Terminal Plus** is a simple, cost effective way to accept card payments in-store or on-the-go.
